Subject: **Addendum to Section 404/401 Permit Application  
Norton Commons Expansion  
Jefferson County, Kentucky  
USACE ID# LRL-2008-00817  
KDOW AI No.: 83789  
Redwing Project 08-104**

Dear Ms. Archer and Mr. Robinson:

Redwing Ecological Services, Inc. (Redwing), on behalf of Traditional Town, LLC (Traditional Town), is pleased to submit this Addendum to the Section 404/401 permit application for the Norton Commons Expansion project in Jefferson County, Kentucky. The joint application is currently being reviewed by the U.S. Army Corps of Engineers (USACE) under USACE ID# LRL-2008-00817 and by the Kentucky Division of Water (KDOW) under KDOW AI No.: 83789.

The original permit application presented a conceptual mitigation plan consisting of a combination of on-site riparian restoration/enhancement and in-lieu fee payment in order to compensate for 600 linear feet of perennial stream impact and 265 linear feet of intermittent stream impact (for a total of 1,165 stream credits required). Based on recent developments, Traditional Town has decided to forego all on-site mitigation and fulfill all stream mitigation requirements through an in-lieu fee payment of \$139,800 to the Kentucky Wetland and Stream Fund.

We appreciate the opportunity to work with you on this project. Please contact Matt Blake or Ron Thomas at (502) 625-3009 with any questions you have during your review.

Sincerely,

L. Matthew Blake  
Project Ecologist II
